INTRO

I design complex software: clinical tools, regulated platforms, design systems. Currently the first in-house designer at a healthtech whose records run in **19 hospitals**. I research, design and ship, and I write a fair amount of the code myself.

EXPERIENCE

GALEON · Product Designer, first in-house — 2024 — present

- Own the **multi-product design system** on Figma: component library, variants, variables, design tokens exported to the codebase, dev-ready documentation.
- End-to-end product ownership on Atlantis (clinical SaaS) and Codex (medical protocols): research with clinicians, concept, prototyping, usability testing, shipping.
- **High-density interfaces**: dashboards, advanced filters, roles and permissions, audit trail, regulated KYC flows.
- **Design engineering**: Webflow build of galeon.care, referral PDF generator, automated mail signatures. Git, code reviews, AI-assisted workflows.
- Landing pages at **>8% lead conversion**, contributing to a **€2M** raise. Mentored an apprentice designer.

IBM CONSULTING · UX/UI Designer — 2022 — 2024

- Long engagement at **Crédit Mutuel**: **20+ back-office screens**, information-dense tables, multi-role interfaces, compliance and reporting workflows.
- **Smart Assistant Ticket**, an AI/NLP assistant for 200+ banking agents: **~5K tickets/month**, **–30% input errors**, procedure lookup from ~90s to ~15s.
- R&D exposure across AI, quantum and XR/VR: interactive formats that make technical complexity legible to enterprise audiences.

AIR FRANCE · UX/UI Designer, Digital Factory — 2020 — 2022

- Contributed to the **AF/KLM cross-team design system used by 40+ front-end engineers**: components, tokens, governance, dev-ready documentation, adoption across product teams.
- **Atlasman** (project management, 300+ projects) and **Pilot Planning** (1 000+ airline pilots: rotations, weather, NOTAM), both built on the group system.
- **Dépannage Escale**, incident coordination at CDG (~20 incidents/day): flows restructured for faster resolution under operational pressure.

AGENCE EVVI · Visual Designer — 2020

SELECTED WORK

2024	**MARCO!** · travel-planning app, closed beta
2023	**OLYMPIC MEDAL RUSH** · editorial data experience
2023	**IBM LAB IDENTITY** · identity and motion
2022	**IBM STUDIO PARIS** · spatial and brand design
2022	**STRAWPOLIS** · multiplayer strategy interfaces
2021	**ATLASMAN** · project management at Air France

CURRICULUM

GOBELINS · Master's degree, Interaction Design — 2022 — 2024

GOBELINS · Bachelor's degree, Interaction Design — 2019 — 2022

SERVICES

- UX/UI Design
- User Research
- Art Direction
- Branding
- Motion Design
- 3D Modelisation

TOOLS

- Figma, Framer, Rive
- Adobe Creative Suite
- Webflow, HTML / CSS / JS
- Cursor, Claude Code, Figma MCP
- Git, GitHub, Jira
- Microsoft Clarity, GA

LANGUAGES

French native · English C1, working language
